NEXT WEEK.

To-morrow is the beginning of Christmas week. The three week days which precede the festival will see an enormous activity among the shoppers. Presents have to be secured that dear ones may not find the lack of remembrance a thorn in the heart

Unfortunately, too much policy regulates a large amount of the gift-giving of this merry time. Of course papa must resign himself to the useless offering which his herianed daughter bestows and for which the bill will be sent in to him at the beginning of the year. But when MARY thinks how small a present she can buy for JANE, who will give her something and must get as near a righteous equivalent as is possible, and so on with other pairs of Christmas givers, the sweet thoughtfulness and love which are supposed to give value to these nts is simply flattened against the wall till there is no life in it.

But they who give to THE EVENING WORLD's Christmas Tree have this sweet ciousness of purpose which so dignifies a little generosity. They bestow their gifts upon needy children, poor boys and girls, to whom such courtesy is rare and thrillingly grateful. Who may receive what they shall bestow they know not, save that children, who would otherwise find Christmas a wearlsome mockery flaunted in their white, pinched faces, will gather a harvest of Christmas joy from their good deeds.

Hasten, then, to improve the time which smains, that you may figure in the worthy roll-call of the poor children's benefactors

HANS, THE NON-CLEANER.

The Fassett Committee undertook a large ntract when it set out to discover from Mr. BRATTIE why he does not keep the streets of New York clean, since he is paid for floing this, and has accepted a position which entails this duty upon him. Mr. BEATTIE said what he has so often said beere: There isn't money enough, and any now there is more cleaning done than there need to be.

It is hard for New Yorkers to understand why, with Mr. BEATTIE's accession to office, the town developed a greater tendency to producing dirt. If there isn't money nough to clean the streets, why, there should be more. The streets have got to the cleaned. There is no way out of that fact. Whatever is essential to this result

If Mr. BEATTIE feels that he cannot clean them, no matter what the reason is, he should gracefully retire from a position which he avows his inability to fill. He is a strange man who will accept a public good packground for the roay hue of health in his charge which he knows he cannot acquit himself fittingly in. Do something, Mr. BEATTIE. Do something.

IS THIS NOT NATIONAL BHAME?

If the account given by Corpl Gunn, or the Eighth Cavalry, be true, then the United States has need to hang its head with shame over the brutal, barbaric treatment inflicted on SITTING BULL! There is no sen timent here. Every stanch American must feel a relief that the doughty Sloux chief has departed the scene. He was a nuisance and a disturbing force among the

But that is no reason why he should hav been shot down like a dog, and then his dead body be treated to every contumely which narrow, malignant hate could invent A nation should never be calmer and less open to the charge of passion than in administering justice. It was everything but calm and just in the fashion with which it compassed the death and mutilation of SITTING BULL. The perpetrators of this outrage should be fitly and severely disci-

Prof. Snow inoculates the healthy bugs with a fetal disease of a contagious character and then turns them loose in the fields where the healthy chinches are making life one holiday of feasting. They succumb to the fateful infection of their diseased kind, they die, and the crops are saved. Trulf, the Western farmer has reason to rise up and call Snow blessed. Down with the chinch !

When strikers employ the rifle as an argument against those of their number who elect to return to work, it is time that should be taught a lesson. United and universal action is, of course, the life and soul of a strike, but using hot lead to secure it is tyranny of the worst kind.

People have laughed a good while at Senator BLAIR and his Educational hobby. Now the Senator has set up for a regular humorist, and it's almost too bad that his light will go out March 4th.

Another sportive servant has poisoned a whole family by means of the coffee. Apparently no reason can be given by her for this playfulness. Lack of motive is no excuse in wholesale murder.

"The Prophet," Meyerbeer's classic yet pon derous opera, was sung at the Metropolitan Opera-House last night, with Herr Gudehus in the title role, Frau Mielke as Bertha, and Frau Ritter-Gotze as Fides. The recent prominence given to Capt. Zalineks, of the United States Army, reminds me of an incident when he was a new second lientenant at Fortress Monroe. Some assign ments to duty had been made which would send three or four officers, Zalinski among them, to Key West and Dry Tortugas in the beight of the yellow lever season. There was much adverse criticism among the officers, and one adverting to Zalinski intimated that the stripling Lieutenant's personal courage was unequal to the assignment. The next evening, after dress parade, when all the offcers in the garrison were assembled about the commanding officer, Zalinski deliberately slapped his detractor's face, and spent the intervening time before his departure for Florida in close arrest.
